## University of Wyoming conference addresses hydrogen energy - highlights U.S.-Israeli energy relations

July 21, 2008

 [View for printing](#)

The director of the federal government's key energy technology laboratory, along with experts from as far away as Israel and India, will be at the University of Wyoming for a conference on hydrogen energy development beginning Tuesday.

Gov. Dave Freudenthal will give the keynote address at 8:20 a.m. Wednesday and Carl Bauer, Director of the National Energy Technology Laboratory headquartered in Pittsburgh, will discuss "transitions to hydrogen" at 1:20 p.m. The conference begins Tuesday afternoon with a free seminar on hydrogen, incident training by West Virginia University officials, a U.S.-Israel Energy Cooperation roundtable and a workshop on product development.

By PHIL WHITE Star-Tribune correspondent
